Re: FOIA Request

To Whom it May Concern:

Pursuant to the Freedom of Information Act ("FOIA"), as amended, 5 U.S.C. § 552, and the Environmental Protection Agency ("EPA" or "Agency") rules issued thereunder, 40 C.F.R. Part 2, I request the following documents:

Non-confidential information for "sites controlled by the submitter" and "sites controlled by others" on pages 8, 8a, 9, 9a, 10 and 10a of the Premanufacture Notification ("PMN") form and related continuation sheets and attachments, as well as EPA review memoranda, concerning the process, equipment, worker exposure and environmental release associated with the chemical conversion of the new chemical substance to a biodiesel or renewable fuel submitted to or developed by EPA's Office of Chemical Safety and Pollution Prevention's ("OCSPP") New Chemicals Division ("NCD") pursuant to the [Integrated Approach for Biofuel Premanufacture Notices](#). This may include, but is not limited to, non-confidential process diagrams and descriptions from PMNs for biobased or waste-derived new chemical substances following their manufacture when they are chemically converted to a fuel for automotive, jet other means of transportation or power generation.

I agree to pay reasonable search and reproduction costs. If these costs exceed \$100.00, however, I request that you notify me before reproducing the documents. I am willing to receive copies of this information in whatever medium it is most convenient for EPA to send – electronic or print.

Pursuant to FOIA, I understand that EPA will respond with an initial determination regarding this request within 20 working days. If all responsive records cannot be located before then, I request that responsive records be provided as they are identified on a rolling basis.

Respectfully Submitted,

Nur Ibrahim
